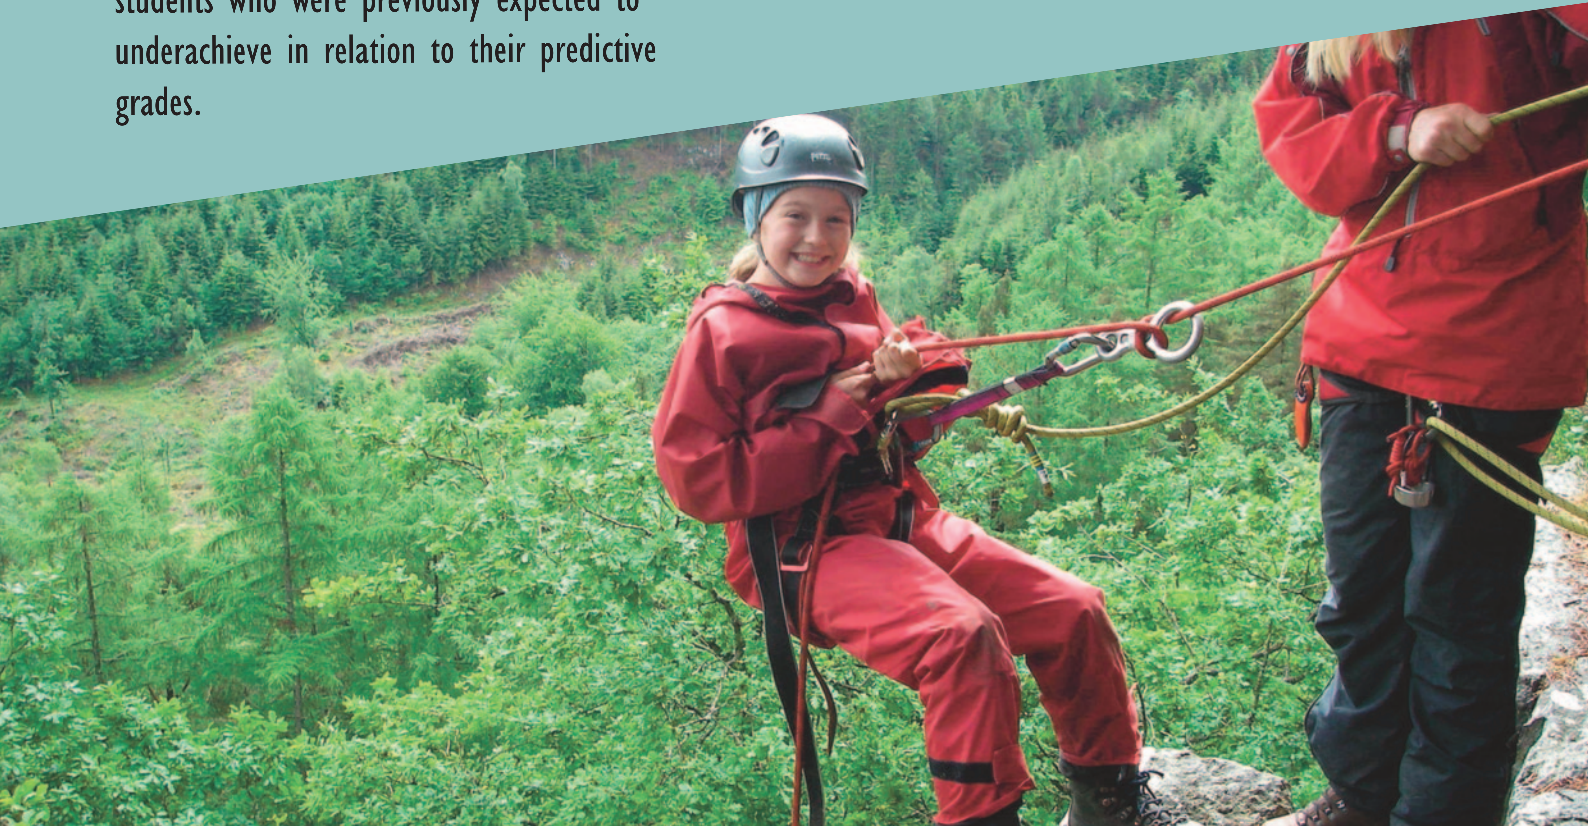
WHY CHOOSE A RESIDENTIAL COURSE FOR YOUR CLASS?

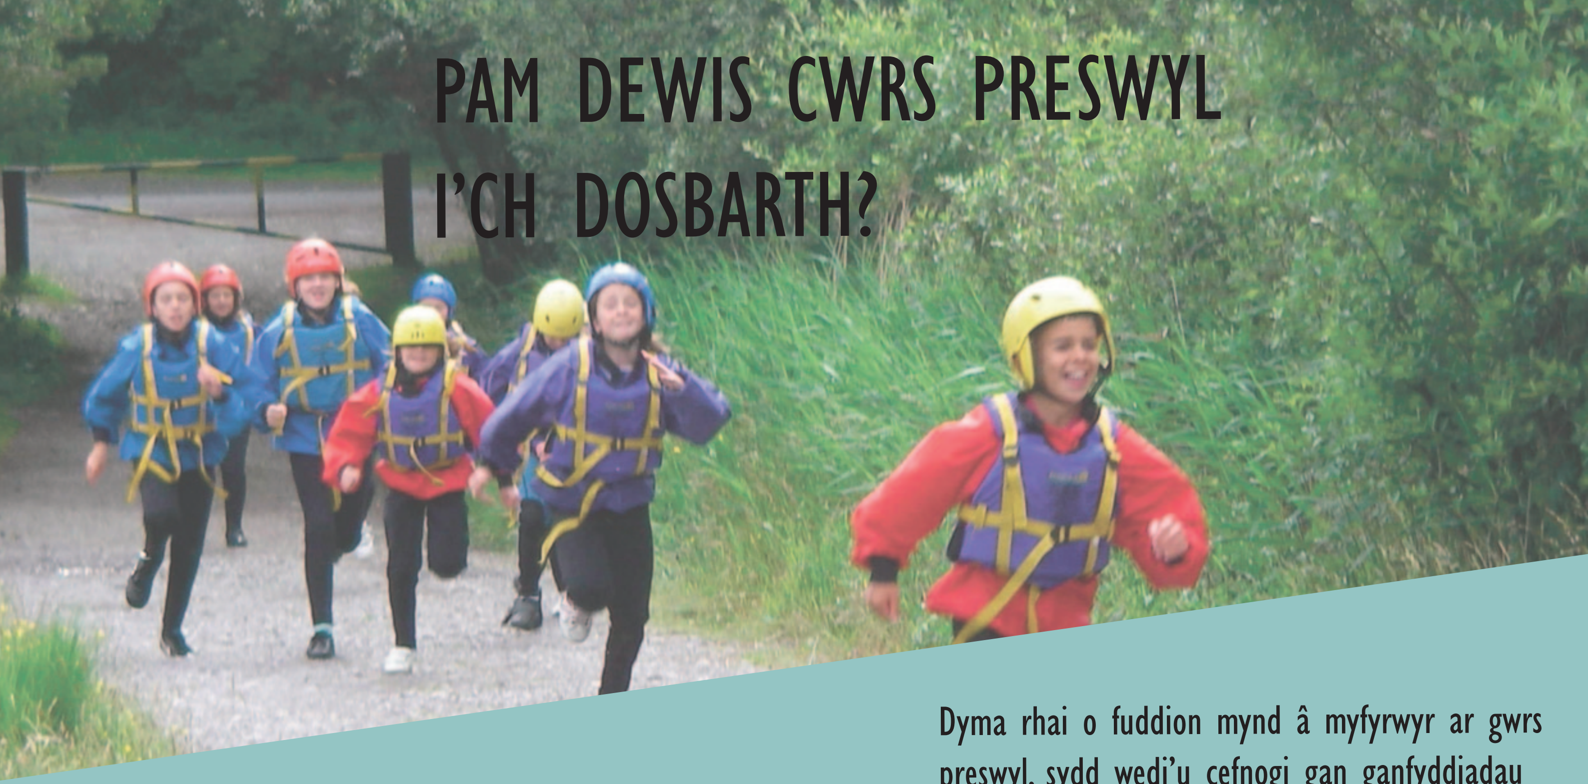
Residential courses often seem like a nice addition to the school year. But did you know that school residentials can have a transformative impact on your pupils and help them achieve their potential long after your residential course has finished. Studies show that the impact of a residential course is significantly greater for 'vulnerable' pupils; showing positive progress and sustained attainment amongst students who were previously expected to underachieve in relation to their predictive grades.

Here are just some of the benefits of taking students on a residential, supported by evidence from research findings from the Learning Away Consortium:

1. Boost resilience, mindfulness and well-being
2. Increase engagement with learning
4. Foster deeper relationships
5. Discover new learning opportunities
6. Improve students' knowledge, skills and understanding
7. Enhance & transform relationships and respect
8. Boost cohesion and a sense of belonging
9. Provide opportunities for student leadership



PAM DEWIS CWRS PRESWYL I'CH DOSBARTH?



Mae cyrsiau preswyl yn aml yn ymddangos fel ychwanegiad da i'r flwyddyn ysgol. Ond a wyddoch chi y gall cyrsiau preswyl ysgolion gael effaith trawsnewidiol ar eich disgyblion i'w helpu nhw gyflawni eu potensial ar ôl i'r cwrs ddod i ben? Mae astudiaethau'n profi bod effaith cyrsiau preswyl yn sylweddol fwy i ddisgyblion 'diamddiffyn', gan ddangos cynnydd cadarnhaol a chyrhaeddiad parhaus ymysg disgyblion a oedd ddisgwyl iddynt dan gyflawni yn flaenorol mewn perthynas â'u graddau tebygol.

Dyma rhai o fuddion mynd â myfyrwyr ar gwrs preswyl, sydd wedi'u cefnogi gan ganfyddiadau gwaith ymchwil y 'Learning Away Consortium':

1. Hybu gwydnwch, ymwybyddiaeth ofalgar a lles

4. Magu perthnasau dyfnach
5. Darganfod cyfleoedd dysgu newydd
6. Gwella gwybodaeth, sgiliau a dealltwriaeth myfyrwyr
7. Gwella a thrawsnewid perthnasau a pharch

GSCE GRADE BOOSTER COURSES

Dedicated revision weekend tailored towards your pupils.

Our GCSE Grade Booster courses are highly successful, blending adventurous activities with practical and classroom sessions in specific curriculum subjects. The weekends target year 10/11 pupils who are borderline C/D students. These courses combine five adventurous activity based learning sessions with five exam focused classroom sessions, underpinning theory with real experiences.

Here are some examples of courses focussed on subject areas:
Welsh Learners and any adventure: We can offer a fully bilingual course, running activities jointly through both mediums, with follow up classroom sessions on subjects that your students will need to speak about on your exam syllabus.

Maths and Canoeing: With maps of our local lake, students paddle a triangular course, plotting their journey as they go. They might stop for a chance to make a fire and toast marshmallows, or take a dip in the middle depending on weather, and return to base to analyse their journey. Using the plotted course subjects covered include: pythagoras, trigonometry, distance, conversions, significant figures and area. Subjects tailored to meet your revision needs.

Chemistry and Caving: Simply put, caves are carved by water. But water alone could never make the incredible formations found in caves. It's actually a chemical reaction. We can use this process to cover a number of revision topics back at base.

Geography and Climbing: Cwm Idwal is probably the most dramatic U-shaped valley in the UK. We can cover glaciation, tourism, fluvial geomorphology and rock types. The precise topics covered can be negotiated to suit you.

Physics and Mountain Biking: Students cycle straight out of grounds making use of the iconic Marin Trail. Topics covered include: forces and movement, energy, efficiency and ratios. Using your exam past papers we can tailor the session to you and your students.

Biology and Abseiling: Using monitors students can record pulse rate when resting, when abseiling and when stopping. They can also survey plants in the area and/or animals that can be spotted and analyse results. Subjects covered include: living organisms, respiration and gas exchange, transport, ecosystems and habitats. Accompanying teachers can advise on topics covered depending on needs.

Typically, course arrival is approximately 5pm on Friday, with departure at 2pm Sunday. The price per course is detailed on our course costs page, and includes, all food, accommodation, activities and specialist equipment. Please contact us if you are interested in booking these courses for your class.

Gallant hefyd archwilio planhigion yn yr ardal, a neu anifeiliaid y gellir eu gweld, a dadansoddi'r canlyniadau. Pynciau a drafodir: Organebau byw, Resbiradaeth a chyfnewid nwy, Cludiant, Ecosystemau a chynefinoedd. Gall athrawon sydd hefo'r disgyblion roi cyngor ar bynciau a gwmpesir yn dibynnu ar anghenion.

Fel arfer bydd disgyblion yn cyrraedd y cyrsiau am 5pm ar nos Wener gan adael am 2pm bnawn Sul.
